

Suggested project description (Optional, be concise if possible):	Is project reflected in Community Plan? (select Yes/No)	Is project in a facilities financing plan? (select Yes/No)	If yes, list financing plan/provide reference:	Project Priority Rating:
The Uptown Planners' recommends capital improvements along Washington Street between 8th Ave and Normal Street to improve pedestrian, bicycle, and scooter safety as the top Capital Improvement Priority. The specific improvements include removing the slip ramps from SR 163 to Washington St and providing protected and safe bike, pedestrian (sidewalks), and scooter infrastructure to a section of Washington St. undergoing changing land use development.	Yes	No		1
The Uptown Planners' recommends capital improvements along University Ave between Front St and Park Ave to improve pedestrian safety (e.g., bulb outs, pedestrian head starts signals) at all intersections and public amenities (e.g., street trees, public benches, public art) throughout the corridor. This area is trafficked by thousands of pedestrians, bicyclists, and scooters daily with the opportunity to create a more vibrant and safe commercial center within the Hillcrest neighborhood.	Yes	Yes	M-6: Locations for pedestrian facilities include but are not limited to: 1) University Avenue between Washington Street and Park Boulevard	2
Maple Canyon Phase II Improvements, storm water improvements and better erosion control including improved hardscape and natural drainage tools.	Yes	Yes	P-20: Maple Canyon Open Space Trail – Improvements	3
University Avenue Protected Bike Lane	Yes	Yes	M-6:Planned Uptown Bike Facilities	3
Pedestrian safety enhancements at the corner of Washington and India to slow traffic and improve pedestrian visibility including bulb-outs, improved cross walks, improved signage, slower speed limits.	Yes	No		3
Turn Presidio Dr and Jackson St into a One-Way loop to provide room for a protected bike lane.	Yes	No		3
			P-14: Mystic Park - Development , which may include multi-purpose turf areas, children's play areas, seating, picnic tables, exercise areas, off-leash dog area, and landscaping.	3
There are two series circuits in Bankers Hill connecting all street lights in the neighborhood. They are over a hundred years old and are frequently offline causing entire blocks of street lights to go out and preventing the installation of new street lights. Uptown Planners requests replacing the two Bankers Hill series circuits.	Yes	No		4
Improve lighting on the Vermont Street bridge	Yes	No		4
Improve traffic flow with a focus on pedestrian and bicycle safety on Robinson Ave at SR 163	Yes	Yes	M-1: Robinson Avenue Bridge over SR-163 between 8th Avenue and 10th Avenue The project would provide for the widening of Robinson Avenue over State Route-163 by 10 feet to "improve active transportation facilities* along the bridge.	4
