

Your Voice Counts: Campus Modernization Coming to Alice Birney Elementary School!

"Bees" and neighbors, you are invited to the first Design Task Force workshop to learn about and share your input on a proposed campus modernization to Alice Birney Elementary School.

Join the San Diego Unified School District project team, architects, and other key community partners to re-imagine the existing campus with a new, state-of-the-art modernization that will benefit students and the community for years to come.

Capital improvements are funded by the district's Propositions S & Z, and Measures YY & U, approved by voters in 2008, 2012, 2018, and 2022.

Mark Your Calendar!

- The first Design Task Force workshop will be held on **Tuesday, Oct. 17, 2023 from 6 - 7:30 p.m.** at the Alice Birney Elementary School auditorium, located at 4345 Campus Ave., San Diego, CA 92103.
- The Whole Site Modernization may include building systems repair and replacement; improvements to support learning and instruction; health, safety and security; accessibility and code compliance; and energy efficiency and sustainability. A detailed scope of work will be developed using input from the school community and facilities condition assessments.
- We look forward to seeing you!
